

Wireless Shutdown System

THE SYSTEM THAT WILL PREVENT ACCIDENTS AND SAVE LIVES

Ameri-stop lets you stop your equipment when the main shutdown system is out of reach.

The wireless shutdown system consists of 2 components.

The first component is the transmitter tube. It's waterproof and can be installed on the person you would like to protect.

The second component is the receiver box. Its installed on the unit.

SPECIFICATIONS OF THE TRANSMITTER TUBE

- WEIGHT: .15 KG WITH 2 AAA BATTERIES
- LENGTH: 17 CM
- DIAMETER: 4 CM
- 2 AAA BATTERY SUPPLY
- WATERPROOF TUBE
- MAXIMUM OF 64 TUBES PER RECEIVER BOX

SPECIFICATIONS OF THE RECEIVER
